Education

FAST National University of Computer and Emerging Sciences

2023 – Expected 2027

B.Sc. Computer Science

Karachi, Pakistan

- **CGPA:** 3.52/4
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Software Design & Analysis, Graph Theory
- **Honours & Awards:** Three-time Dean's List Recipient.
- **Competitive Programming & Achievements:** AI Grand Prix Winner (PROCOM 2026), ICPC Asia Top Regional Qualifier (2026), Coders Cup 2025 Finalist.

Professional Experience

Xeeoff Pvt. Ltd.

Sep 2025 – Dec 2025

Trainee Software Engineer

Karachi, Pakistan

PhinExIntra — Cybersecurity SaaS Platform | ASP.NET Core, Blazor Server, SQL Server.

- Developed 10+ interactive social engineering simulation modules (phishing, quishing, voice cloning), enhancing user awareness against modern cyber threats.
- Built an automated LMS pipeline to enroll compromised users into targeted training programs (videos, quizzes, certifications), improving remediation workflows.

SDrive — Ride-Hailing App Admin Portal | ASP.NET Core, Blazor Server, SQL Server

- Developed an admin portal for driver onboarding, vehicle verification, and license validation, including real-time approval workflows and system notifications.
- Implemented analytics dashboards, reporting features, and dynamic fare management, improving operational control and decision-making.
- Built a ticketing system for customers and drivers with assignment, escalation, and full lifecycle tracking.

Technologies

Languages: C#, C++, C, Python

Frameworks: ASP.NET Core, Web API, MVC, Blazor Server, EF Core, SignalR

Databases & Security: SQL Server, Database Design, JWT Authentication, ASP.NET Identity, RBAC

Architecture & Patterns: N-Tier Architecture, Repository Pattern, Unit of Work

Projects

Skill Swapper | Skill Exchange Web API

ASP.NET Core Web API | EF Core | SQL Server | JWT | Swagger

- Engineered an API-first skill barter platform with 40+ RESTful endpoints, supporting direct skill exchange and a Skill Coins virtual currency system for asynchronous trades.
- Integrated SignalR for real-time in-app chat and booking notifications, and built a session management system with calendar-based scheduling, approval workflows, and group bookings.

BloodLink | Blood Donation Management System

ASP.NET Core | Blazor Server | SQL Server | ASP.NET Identity

- Built a multi-role platform (Donor, Recipient, Blood Bank, Admin) with admin-gated profile approval, blood-type-based donor-recipient matching, and request locking to prevent duplicate assignments.
- Developed appointment scheduling, donation tracking, certificate generation, real-time SignalR notifications, encrypted internal chat, and an admin dashboard with audit logs and inventory management.

BookedIn | Full-Stack E-Commerce Platform

ASP.NET Core MVC | EF Core | SQL Server | Stripe | Azure

- Architected a production-ready bookstore with modular Areas (Admin, Customer, Identity), Repository and Unit of Work patterns, and role-based access for Admin, Customer, Company, and Employee roles
- Integrated Stripe session-based checkout with PaymentIntent tracking, real-time order status updates, dynamic cart pricing, and paginated product and order management
